SUMMARY

Enthusiastic Information Technology student with practical knowledge in programming, web development, and system administration. Skilled in troubleshooting, logical thinking, and adapting to new technologies quickly. I am a responsible team player with strong communication skills, seeking an internship opportunity to gain industry experience and support real world IT projects.

EDUCATION

- BSc (Hons) in Information Technology Specializing in Information Technology.
Sri Lanka Institute of Information Technology (2023 - Present)
- GCE Advanced Level (Technical Stream) - Siridhamma college (2019-2022)
- Diploma in English - ICBT Galle (2024)

CERTIFICATIONS

~ Python for Beginners - University of Moratuwa (2025)

Covered Python fundamentals including variables, loops, functions, and basic problem solving.

~ MongoDB Data Modeling Path Certification - MongoDB (2026)

Learned MongoDB data modeling concepts including schema design, embedding, referencing, and database structure optimization for scalable applications.

SKILLS

~ Programming: C, C++, Java, Python, JavaScript
~ Backend Development: Node.js, Express.js, PHP
~ Mobile Application Development: Kotlin(android)

~ Web development: MERN, HTML, CSS, Tailwind, React
~ Database Management: MySQL, MongoDB

PROJECTS (Academic)

• ~ Gas Distribution Web Application

2nd Year, 2nd Semester full-stack web application developed using the MERN stack (MongoDB, Express.js, React.js, Node.js). Implemented features for gas order management, customer handling, and distribution tracking.

• ~ Library Management Web Application

Developed during 2nd Year, 2nd Semester and further improved in 3rd Year, 1st Semester using the MERN stack. The application includes book management, user handling, borrowing records, and inventory tracking functionalities.

• ~ Smart Campus Management Web Application

3rd Year, 1st Semester software engineering project developed using the Spring Boot framework. Designed and implemented modules for campus resource management, student services, and system administration.

• ~ Mobile app (HabitNow)

Designed and developed a user-friendly application to help users track and maintain daily water consumption and more goal
